**\* ACKNOWLEDGEMENT \***

First and foremost, we give all credit and honor to Almighty God for allowing us to achieve great success in our professional endeavors.

We'd like to thank our instructors, Mr. Ehis and Mr. Favour, as well as our project supervisor, Mr. Jonathan, for giving us a fantastic opportunity to excel in our learning this semester and for supervising the project.

We would also like to express our gratitude to our family for their unwavering encouragement and support throughout the project.

Finally, we would like to thank our colleagues for motivating us to complete this project ahead of schedule.

## **Project Synopsis**

**First Fashion** is an online store that sells various types of bags. They have a bag collection. A website is created with all of the products that are listed on the website.

Consumers will now be able to easily view various products and choose the best product to meet their needs.

A website has been created to showcase the various products available at the store. Location information and feedback are also provided.

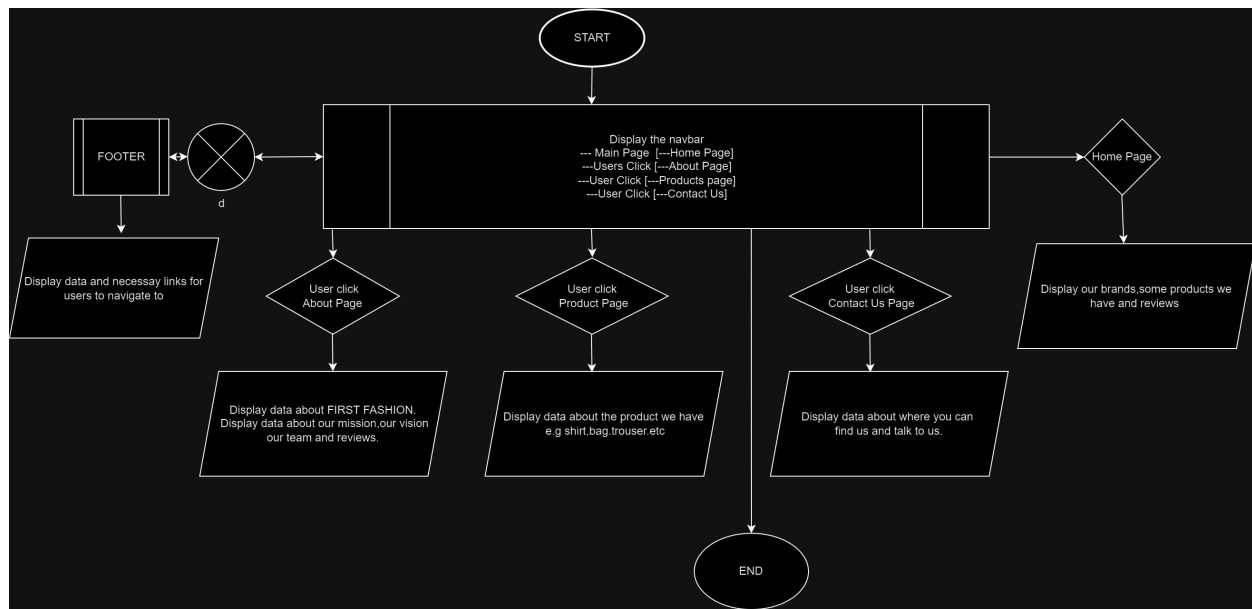

HTML5, JavaScript, and Geolocation were used to create the website for the Windows Platform. The site would function properly in all major browsers, including Chrome, Internet Explorer, and Firefox.

## **Project analysis**

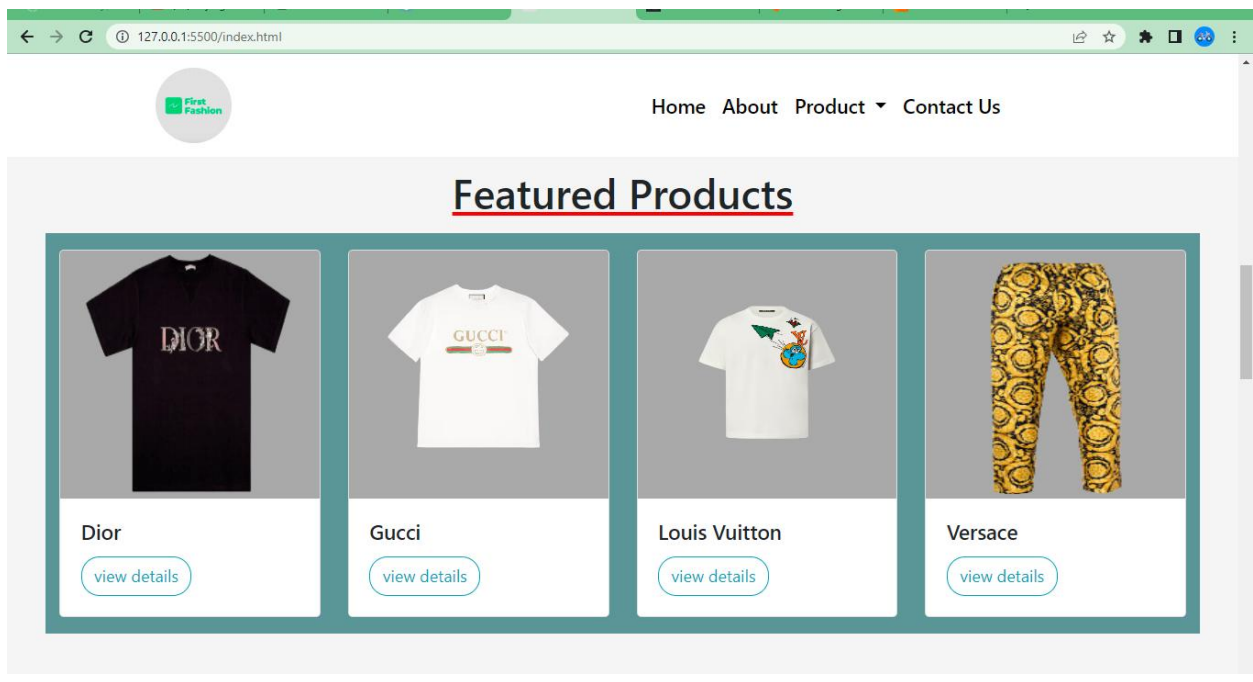

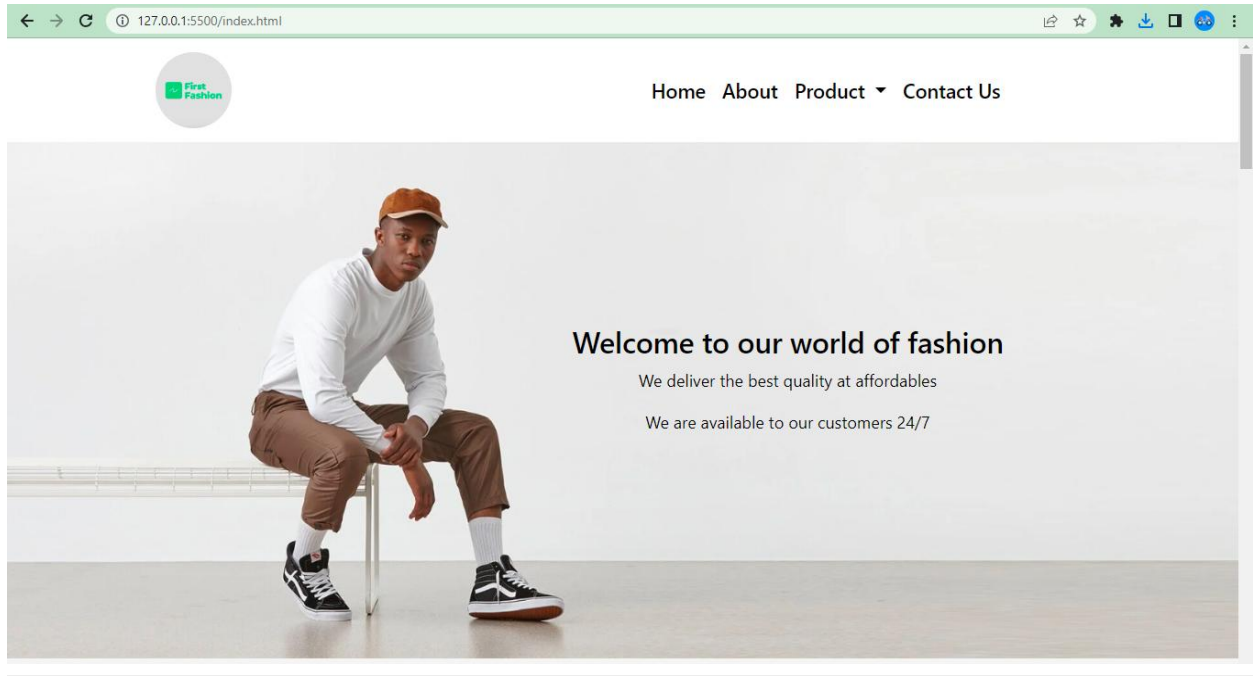

**First Fashion** was built with a code editor called visual studio, coded with different languages: Html5 , CSS3, JavaScript,

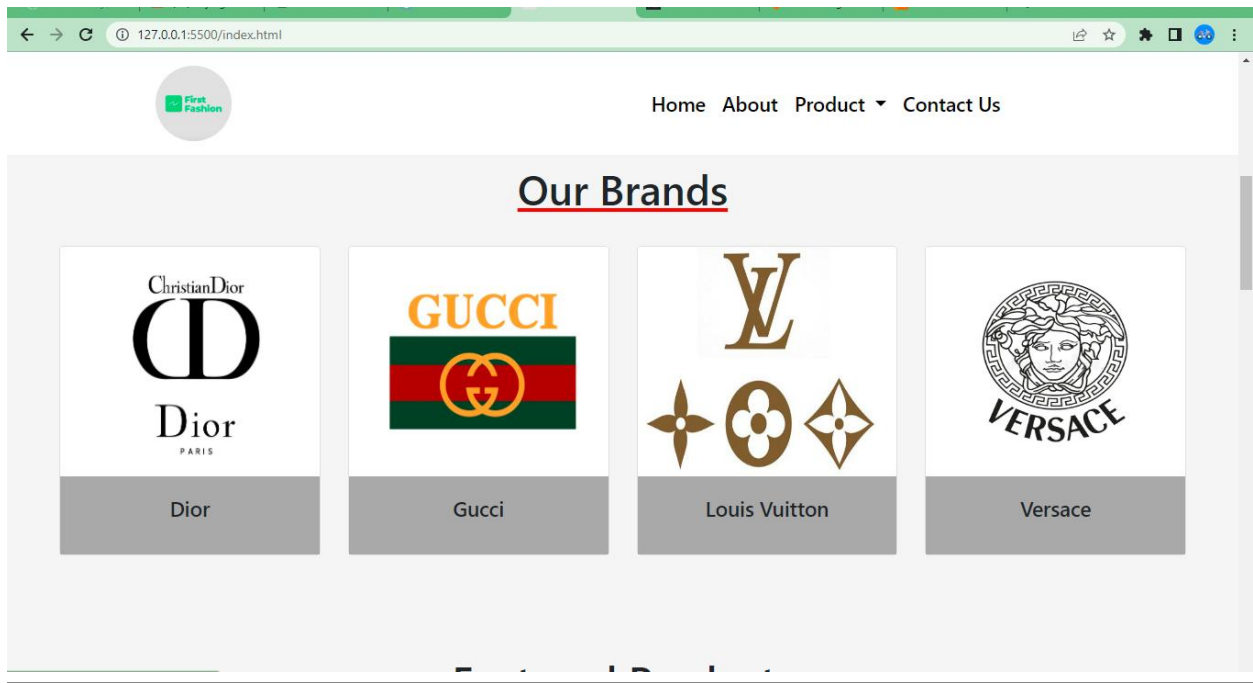

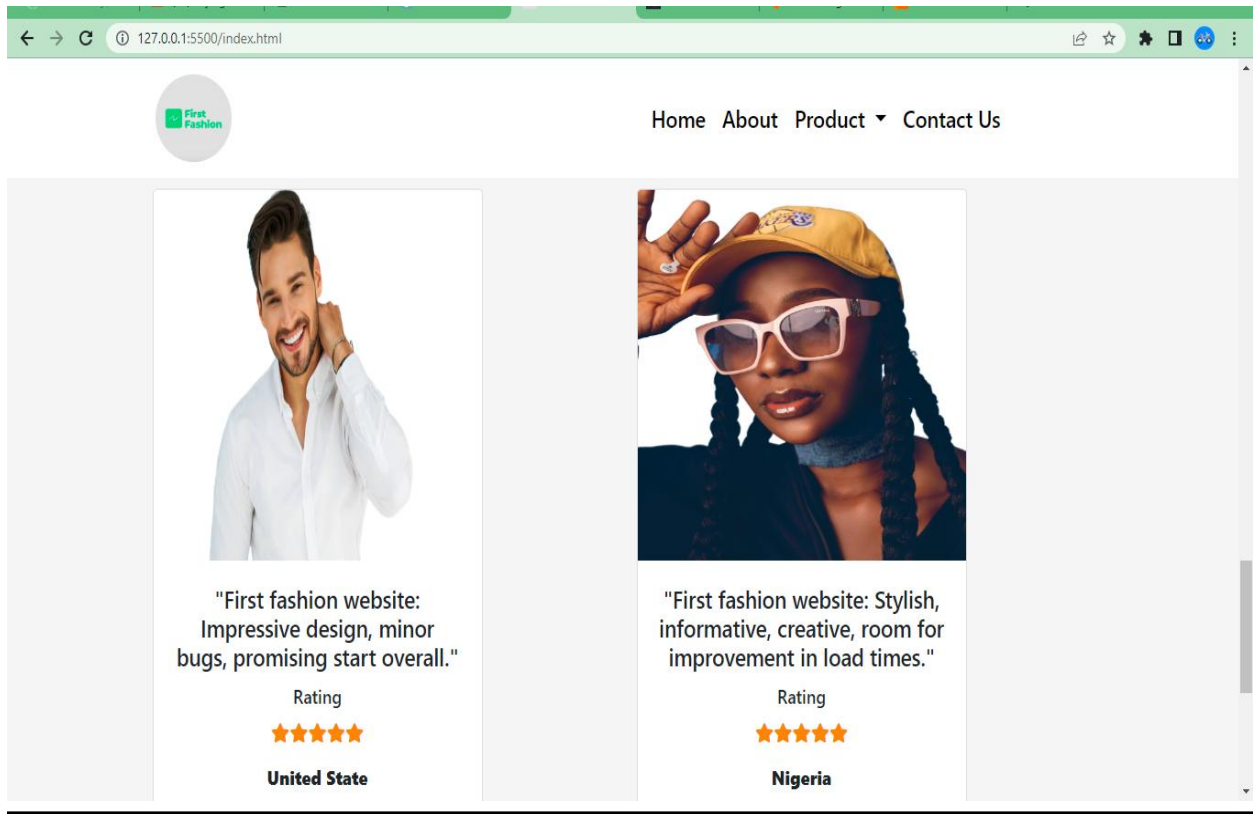

bootstrap-5 and JQuery.
